1. Please comment on the overall performance of the instructor. Did she help you to further develop your speaking, listening, reading and writing skills in French and understand cultural material? What were her strengths and areas for improvement?

I think this class helped a lot with reading and listening. We learned a lot of cultural material as well. Professor Swanson is very approachable and supportive; however, one area for improvement may be in forcing students to participate.

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

IRN was helpful solidifying new grammar, and the cultural sections were helpful in learning vocab. I think some of the in class activities could have been simpler/more relevant ~~the~~

3. Please comment on course assignments. Did they help you to learn, and did you find them fair and relevant to course goals? Was the grading fair and the feedback helpful?

yes - I would have liked to have had more compositions and a midterm, but I thought the nightly ITC was good for preparing for class.

4. Please comment on the instructor's demeanor and accessibility. Was she successful in creating an environment conducive to learning? Was she accessible outside of class?

Prof. Swanson is so kind, supportive, and encouraging; however, she could be stricter.

5. Is there any other aspect of the course or of the instructor's performance you would like to comment on?

I respect the professor for not forcing shy individuals to participate but I think there has to be an alternative to forcing and not having people contribute.

Final Course Evaluation

1. Please comment on the overall performance of the instructor. Did she help you to further develop your speaking, listening, reading and writing skills in French and understand cultural material? What were her strengths and areas for improvement? Professor Swanson provided an energetic environment for learning French. While being energetic in the morning was difficult, her effort into the class was nice. Overall, I think my French abilities improved. Her strengths were her eagerness to help students. I think one area of improvement could be having a progression in class activities, where we start off with understanding the conceptual component, then progress to using the grammar freely.
2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful? ILM was pretty helpful. Also discussing content in class and speaking French was helpful sometimes. Depending on the activities we did. Le petit prince made some things confusing, but otherwise it was also helpful.
3. Please comment on course assignments. Did they help you to learn, and did you find them fair and relevant to course goals? Was the grading fair and the feedback helpful? The course assignments varied in help. I felt like writing assignments weren't too productive without a one-on-one meeting about them. The grading was fair and the feedback varied in helpfulness.
4. Please comment on the instructor's demeanor and accessibility. Was she successful in creating an environment conducive to learning? Was she accessible outside of class? Swanson was very energetic and approachable.

1. Please comment on the overall performance of the instructor. Did she help you to further develop your speaking, listening, reading and writing skills in French and understand cultural material? What were her strengths and areas for improvement?

Overall, I really like how Lucy was always so energetic and was never affected by our fatigue/Monday morning blues. It kept me motivated in class. I felt better with reading skills and I loved the use of videos and readings to learn about culture. She always includes a wide variety of things! To improve, I think finding more ways to ^{Speak} would help.

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

I learned so much. I think what was most helpful were in class reviews of the structures b/c it solidified what I learned the night before. The activities that were least helpful were the ones where I had to write a story in French w/ a partner, only because I'm a very individual learner, but sometimes it's nice.

3. Please comment on course assignments. Did they help you to learn, and did you find them fair and relevant to course goals? Was the grading fair and the feedback helpful?

The assignments were great. I appreciated her grading and I learn so much just by looking at her comments, especially on expressions écrites.

4. Please comment on the instructor's demeanor and accessibility. Was she successful in creating an environment conducive to learning? Was she accessible outside of class?

Yes, yes, yes! She's probably the most environment-aware professor I've had. I just wish the class size was smaller, I think her teaching style would work much better with small classes. I'd feel more inclined to participate if the ^{class was smaller, too.}

5. Is there any other aspect of the course or of the instructor's performance you would like to comment on?

I'll miss Lucy! I'm so glad I got a chance to have her as a professor, but again, I would have enjoyed her class much more if the class was small (like, 10 people max). She's really engaging!

1. Please comment on the overall performance of the instructor. Did she help you to further develop your speaking, listening, reading and writing skills in French and understand cultural material? What were her strengths and areas for improvement?

Prof. Swanson has helped me improve my listening and speaking skills immensely, and she addresses all the grammar points and reading sections with high clarity. However, it can be better if she can introduce more vocabulary.

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

Writing and group presentations are very helpful, as well as most other assignments. However, exchanging groups during group activities does not seem to be very efficient.

3. Please comment on course assignments. Did they help you to learn, and did you find them fair and relevant to course goals? Was the grading fair and the feedback helpful?

Yes. The feedbacks are very detailed.

4. Please comment on the instructor's demeanor and accessibility. Was she successful in creating an environment conducive to learning? Was she accessible outside of class?

She has maintained the use of French inside class and is generally accessible otherwise.

1. Please comment on the overall performance of the instructor. Did she help you to further develop your speaking, listening, reading and writing skills in French and understand cultural material? What were her strengths and areas for improvement?

I think she helped develop these skills, especially speaking and listening, but I think there should be more writing involved in class.

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

I thought that writing activities were helpful and presentations helped too. I thought we had too many speaking activities in class, which were not that helpful.

3. Please comment on course assignments. Did they help you to learn, and did you find them fair and relevant to course goals? Was the grading fair and the feedback helpful?

The assignments were fair but sometimes I felt they were not completely relevant or helpful. The grading was fair and the feedback was returned quickly and helpful.

4. Please comment on the instructor's demeanor and accessibility. Was she successful in creating an environment conducive to learning? Was she accessible outside of class?

She was very good at creating a class environment with conversation and was accessible to ask questions.

1. Please comment on the overall performance of the instructor. Did she help you to further develop your speaking, listening, reading and writing skills in French and understand cultural material? What were her strengths and areas for improvement?

Absolutely. I am so much more confident when speaking, which was one of my main goals.
Strengths — created a comfortable, encouraging learning environment
improvement — honestly nothing comes to mind, I found it an ideal intro course

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

I learned best when we recapped new grammar and then just talked.
(Preference to choosing my own partners as opposed to assigned or rotating felt more productive)

3. Please comment on course assignments. Did they help you to learn, and did you find them fair and relevant to course goals? Was the grading fair and the feedback helpful?

iLrn is a decent way to get a feel for the grammar with immediate feedback, good complement to the in class flow

1. Please comment on the overall performance of the instructor. Did she help you to further develop your speaking, listening, reading and writing skills in French and understand cultural material? What were her strengths and areas for improvement?

She helped a lot with speaking, listening, and reading skills. She's very good at explaining things clearly and class time was pretty well structured. I wish we could have done more to develop writing skills, however, because I don't feel comfortable writing a short response in French.

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

I learned a lot in this course. I thought that the in class textbook activities were helpful in reviewing, and I also liked the short presentations we sometimes had to give. There were some short writing assignments that were confusing.

3. Please comment on course assignments. Did they help you to learn, and did you find them fair and relevant to course goals? Was the grading fair and the feedback helpful?

I liked the online exercises and the le fétit Prince readings and questions. I thought the feedback on written stuff could have been more helpful (maybe if we could revise written assignments and hand them back in).

4. Please comment on the instructor's demeanor and accessibility. Was she successful in creating an environment conducive to learning? Was she accessible outside of class?

She was very nice and funny. The class room sometimes felt a little disorganized but I always felt like she was approachable.

1. Please comment on the overall performance of the instructor. Did she help you to further develop your speaking, listening, reading and writing skills in French and understand cultural material? What were her strengths and areas for improvement?

Lucy did well. I think it's hard to say with an introductory language class

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

I think I learned an appropriate amount given the work I put in. I think it can be pretty useless, but the grammar reviews for le petit bon are good.

3. Please comment on course assignments. Did they help you to learn, and did you find them fair and relevant to course goals? Was the grading fair and the feedback helpful?

Grading was very fair. I maintain that it can be part of the course.

4. Please comment on the instructor's demeanor and accessibility. Was she successful in creating an environment conducive to learning? Was she accessible outside of class?

Lucy was very helpful in terms of being available outside of class. Generally the class room functioned well, although at some point class began starting at 2:40/4:15

1. Please comment on the overall performance of the instructor. Did she help you to further develop your speaking, listening, reading and writing skills in French and understand cultural material? What were her strengths and areas for improvement?

The class helped me further my speaking skills a lot, and less so my writing and listening skills in French. The biggest area of improvement is quiz review

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

I was able to learn how to write and speak more comfortably

the activity most helpful was grammar practice in small groups & beginning questions
the least was large group work

3. Please comment on course assignments. Did they help you to learn, and did you find them fair and relevant to course goals? Was the grading fair and the feedback helpful?

Course assignments were fair and were relevant but I would like it if we discussed common errors

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

Overall I learned quite a bit. The amount I learned was more a reflection on the work I put into the course outside of class. If you were to do all of the assigned work you would learn quite a bit.

3. Please comment on course assignments. Did they help you to learn, and did you find them fair and relevant to course goals? Was the grading fair and the feedback helpful?

1. Please comment on the overall performance of the instructor. Did she help you to further develop your speaking, listening, reading and writing skills in French and understand cultural material? What were her strengths and areas for improvement?

I think I've learned this semester from the class and Prof. Lucy definitely did help in doing that. She was so positive and tried very hard all semester and I think her personality and dedication are two of her major strengths.

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

I enjoyed class discussion with the professor, quizzes helped, expression écrites helped and ifrn were useful even though they're hard to keep up with. Speaking to my neighbor and unsupervised conversation in class wasn't very helpful because neither of us corrected each other so that could be improved.

3. Please comment on course assignments. Did they help you to learn, and did you find them fair and relevant to course goals? Was the grading fair and the feedback helpful?

I think most course assignments were relevant though I think there were a few group assignments that I didn't really learn from. The grading was always fair!

4. Please comment on the instructor's demeanor and accessibility. Was she successful in creating an environment conducive to learning? Was she accessible outside of class?

1. Please comment on the overall performance of the instructor. Did she help you to further develop your speaking, listening, reading and writing skills in French and understand cultural material? What were her strengths and areas for improvement?

I think she help me a little, but not as much as I had hoped. Her strengths were keeping us speaking French. She needs to improve her class time. It felt as though she was not a big part of our class time.

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

1. Please comment on the overall performance of the instructor. Did she help you to further develop your speaking, listening, reading and writing skills in French and understand cultural material? What were her strengths and areas for improvement?

I think I learned from the text a lot but I often had to ask specific questions in order to gain an understanding from the class → we only spoke to our neighbor and that did not help my improvement.

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

grammar or structure.

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

Not many.

Most exercises, in class, were spoken with a partner with little oversight by the prof. meaning my grammar is lacking for this course and I have had very little individual help.

3. Please comment on course assignments. Did they help you to learn, and did you find them fair and relevant to course goals? Was the grading fair and the feedback helpful?
